

*Calling all...*

## Preschool, Strong Start, Kindergarten, Grade 1, Special Education and Learning Assistance Teachers

The BC Association of Speech-Language Pathologists and Audiologists is pleased to offer placement in this one-day workshop to **preschool and strong start educators as well as** teachers of Kindergarten, grade 1, special education and learning assistance.

**This workshop will discuss RTI models and how teachers can incorporate explicit phonological awareness instruction and small group intervention within their preschool and classroom settings. It will discuss opportunities for collaboration with speech-language pathologists in the class.**

**Date:** Friday, October 23, 2015 (Provincial professional dev't day)

**Time:** 8:30-4:30 (breakfast, lunch and snacks included)

**Presenter:** Dr. Melanie Schuele

**Cost:** \$195 (total cost includes meals)

**Location:** Penticton Lakeside Resort

← **Special Teacher's Price**

The goal of Dr. Schuele's research on early literacy acquisition is to explore, within school-based settings, the effectiveness of multi-tiered layers of instruction (Response to Intervention) and intervention provided to children with early literacy difficulties. This line of research has focused on children in kindergarten and first grade and is being extended to children in preschool.

Dr. Schuele has published her research in America Speech and Hearing Association (ASHA) journals in Clinical Linguistics and Phonetics. She has presented her work at state and national conferences as well as at workshops for practicing clinicians. She currently serves on ASHA's Research and Scientific Affairs Committee and is on the editorial board for ASHA journals.

More information and registration can be found on the [BCASLPA Conference website](#). This is a continuing education opportunity brought to you by the:
